PROJECT
PROFILE

PROJECT PROFILE: Maximizing Mission Return on Investment (ROI) on Warfighter Vehicle Readiness, Reset, Repair and Refurbishment.

Terry: 712-252-5254 | John: 256-683-7599 | AmericanWarriorEnterprises.com

THE GOAL: Optimize Return-to-Service Time and Maximize ROI for the US Military Warfighter Vehicle Readiness, Reset, Repair and Refurbishing mission.

- Streamlined technical inspection/repair process
- Streamlined procurement/logistics process
- Accurate tracking/reporting process
- Fixed Price costing, per unit, for Mandatory Repair/Replacement

The result: more vehicles processed and delivered in a shorter time = readiness, reliability and increased mission ROI for the US Military.

MAXIMIZING MISSION ROI THROUGH PROCESS EFFICIENCY AND EXPERIENCE.

THE KEY: A streamlined, efficient process and superior communication (up, down, inside, out)

- Thorough intake inspection
- Mandatory Repair/Replacement Parts Reconciliation
- Timely communication of inspection findings
- Reliable mechanicals, replacements, including media blasting and CARC painting
- Detailed and thorough final pre-release inspection
- Real quality assurance throughout

Terry: 712-252-5254 | John: 256-683-7599 | AmericanWarriorEnterprises.com

THE DETAIL: Backed by the right experience, systems and capabilities.

PROCUREMENT/LOGISTICS

- We manage approximately 2,200 parts/components
- We have tremendous buying power and resources

FABRICATION

- Onsite, comprehensive fabrication resources in steel and aluminum
- We can cut and process up to 18-inch armor plate
- We manufacture trailer and body parts every day of the year

The result: robust mission support systems and capabilities that can only come from experience.

THE HOW: Efficiency through leverage

MANDATORY PARTS

- Sourced and procured
- Just-in-Time delivered
- Inspected and verified

INSPECTION PARTS

- Sourced, procured and trafficked
- Inventoried based on experience
- Inspected and verified
- We manage approximately 2,200 parts and components daily

SPECIALTY/GOVERNMENT PARTS

- Sourced, procured and trafficked
- Inspected and verified

MISSION ROI: the result of the right experience, the right systems and the right capabilities

- Efficiencies that come only from experience.
- Parts procurement, inspection, reconciliation and management based on best practices and real-world experience.
- Full-scope capability, including fabrication. If we need it now, we can get it now.
- A proven approach; staffed by experienced technicians and managers. Backed by a proven process and tight controls.
- Transparent communication and on-going Production Flow Monitoring, reported clearly and concisely.

There is just no substitute for experience and process.

MANDATORY SERVICE (FIXED COST, PER UNIT):

- **Trailers:** 34 inspections; 32 workscope items
- **HMMWVs:** 107 inspections; 131 workscope items
- **Tractors:** 32 inspections; 36 workscope items

INSPECTION-DRIVEN SERVICE:

- Result of Mandatory Service Inspections
- Outside Mandatory Service scope
- Detail varies with each vehicle/inspection
- Inspect, Document, Recommend, Submit for Approval, Complete
